- Thatcham approved alarm/immobiliser
- Low 2mA current draw in normal usage
- Intelligent three stage sleep mode, monitors battery condition.
- Sleep mode give audible warning of battery problems in second stage of sleep
- Two circuit immobilisation (7amp capacity)
- High visibility warning LED
- Battery back-up to protect the machine's wiring
- 8 Siren tones to aid recognition of attack
- False alarm control limits number of triggers to EU standards
- Unit indicate type of trigger when disarmed
- Unit holds last three triggers in its memory to aid fault diagnosis
- Hazard warning light feature via transmitter
- Panic locator feature via transmitter
- Transmitters can be easily added or removed from the system
- Alarm indicates to customer the number of remotes coded to the system
- The alarm can accept up to 6 remote controls
- Both transmitters can be converted to combine with the ignition key
- The transmitters are designed to accept most OE immobilisation transponder chips
- Transmitters Anti-scan/Anti-grab
- Self learning remote controls (no transmitter code card to lose)
- Pincode set by customer (no need to remember factory set pin)
- Future owners can change the pin number
- Silent Arm/Disarm to reduce noise pollution
- Passive Immobilising/Active arming with hot-wire trigger after countdown
- Quality, wide gap, Magnetic reed switch supplied
- Secondary trigger circuit (side stand, accessory loop, etc)
- Active ferry mode arming means customer has to select this feature as they arm the alarm
- Service mode not required
- Radio linked PIR available
- Independently adjustable shock and movement sensors
- Automatic auto re-arm resets the system as you left it if disarmed by mistake
- Internal Trovan ID tag means the alarm can be scanned for positive proof of ownership
- Dedicated cost effective Tagging upgrade kit available to further improve protection
- Fully resin bonded to increase reliability and attack resistance
- 3 year warranty, Warranty transferable to new owner
- 12 volt negative earth only

DATATOOL

DATATOOL DEMON ALARM

SELF FIT MOTORCYCLE ALARM

High Powered Siren –

With full 8 cycle and metal nose cone for added protection in the event on an attack

Waterproof Design –

The system is fully potted to eliminate water ingress and improves attack resistance

Glove Friendly Remote –

Simple two button remote for ease of use

Ultra Low Current Draw –

Class leading ultra low current draw to help save your bikes battery during winter or long periods of inactivity

Compact Alarm Unit –

With its small unique size and shape the Demon is designed to fit in even the most awkward of spaces

Simple Add New Remote Feature –

Easy to add replacement remotes even if one has been lost or stolen

Activation Notification –

A loud beep on disarm notifies the owner on disarming if the system has been activated in their absence

Failsafe Movement Sensor –

With proven technology helping eliminate false triggers

Simple 3 Wire Installation & Plug-In LED –

Ensures the Demon can be easily installed to any 12v Motorcycle, Scooter, ATV or Special

DATATOOL
100% MOTORCYCLE

DEMON ALARM

DESCRIPTION	ORDER REF
The Datatool Demon is quite simply the best compact self-fit system you can buy for your bike. Designed with market leading features. The Demon is one of the highest specification budget systems available and can be easily installed on any 12v motorcycle, ATV or special.	DT055

DATATOOL TRAKKING MOTORCYCLE TRACKING SYSTEM

With full 24/7 monitoring and recovery assistance, the Datatool Trakking system really is your guardian angel. We don't believe in gimmicks on serious security products.

The Thatcham TQA approved Datatool Trakking system has been designed and built in the UK and is the most user friendly and accurate motorcycle tracking system available today, using the latest GPS chip set technology and SIM card features.

Full 24/7 Monitoring and Recovery Assistance-

Unlike some tracking products available we won't leave you high and dry when it comes to the serious business of protecting your pride and joy. With our 24/7 expertly manned call centre Datatool take complete control in the event of a theft meaning complete peace of mind for the owner.

No Speed History Data Logging –

Some of our competitors promote breadcrumb trails with top speeds to sell their product – we don't! In the event of a motoring offence or incident it may be possible for a competitor's tracking device to be interrogated by law enforcement officers, holding all of your recent journey and speed information. Don't let a breadcrumb trail catch up with you!

Virtually Zero Current Draw –

The Datatool Trakking system boasts virtually zero current draw at a mere half a milliamp meaning your bike's battery is always protected during winter or long periods of inactivity. Even if power is totally removed from the unit it has enough back-up power to keep protecting your machine for 3 months!

Early Warning Feature -

A user definable feature – you choose the geofence boundaries of your Datatool Trakking system and any unauthorised movement outside of this area alerts both Datatool and the owner to the potential theft. Not only this but the owner will receive a text or email if the bike is moved within the boundary so you know what is happening immediately.

Pinpoint Locate Feature –

Log in to your dedicated account anytime for free and check the whereabouts of your bike. You can even check to see that we're doing our jobs properly.

Greater Reliability -

A combination of a built in movement sensor, powerful aerial for enhanced reception and waterproof head unit to IPX67 standard means your Datatool Trakking system can withstand whatever life throws it's way.

Easy User Interface -

The Datatool Trakking system offers users a friendly alternative to protecting their machine with an easy to use online owner portal.

Straight Forward Pricing –

We have chosen to make our pricing straight forward so you won't get any nasty surprises! When you buy the Datatool Trakking system you pay just one price to include supply, fitment and nothing else to pay for whole year.

DATATOOL

BATTERY CONDITIONER

MARKET LEADING BATTERY CONDITIONER WITH ON BOARD DIAGNOSTICS.

Features	Benefits	
Continuous 4-stage cycle	Permanently fully charged battery	
1.2 amp charging	Faster charging	
Accessible trailing lead	No need to directly access battery	
On-board diagnostics finding	Helps with battery and bike fault Will charge your car as well	

- Suitable for standard lead acid, sealed and maintenance free 12 volt batteries
- Charger rate of 1.2 amps during initial bulk charge
- Holds charge at 14.3 volts until fully charged
- Charging drops to 13.6 volts after fully charged to maintain battery in a charged state without damaging the cells
- Recycles the charging sequence should the charger detect a voltage drop
- LED system to indicate battery condition
- Recovers semi-sulphated batteries
- Charger cannot overheat due to in-built automatic temperature regulation
- Protected against short circuit connection
- Protected against reversed polarity connection
- Indicates incorrect polarity connection
- Supplied with bolt-on, water resistant battery fly-lead connection systems and temporary battery clamps
- 2 year manufacturers warranty Battery

- Thatcham cat 3 approved (TMC3-152/1003)
- Epoxy powder coated for improved corrosion resistance
- Drill fitted to floor by 4, 16mm Rawlbolts
- Rawlbolts protected from drill attack via hammered in ball bearings
- 16mm masonry bit supplied with the kit
- Shackle 24 mm thick and double welded top and bottom for proved attack resistance

- Mobile installation service, potentially available (in limited areas).

ECONOMY LOCKS

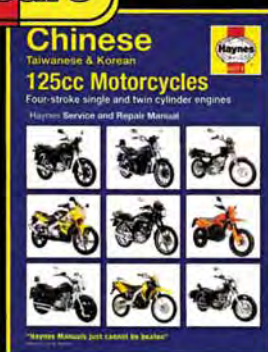

LOCM359M	POWER CHAIN™ 10mm x 180cm Tough as rock, specially hardened 10mm chain for maximum strength Super strong tempered steel Narrower inner width of individual links for high resistance against attack Unique shape of chain defies bolt cutters, saws, chisels, hammers and files Protective cloth covering prevents scratching yet allows compact coiling Weather and heat resistant 11mm hardened special steel closed shackle lock
LOCM502	ULTIMATE PADLOCK™ 11mm One piece solid steel body 11mm hardened special steel closed shackle Double ball bearing locking for high tensile strength 7-disc cylinder with 250,000 genuine key differs and anti-drill plate Compact, Easy to use, high resistance to attack High quality components for long life operation

A photograph showing two men working on a blue motorcycle. The motorcycle is mounted on a red hydraulic lift. One man, wearing a blue jacket, is standing and leaning over the engine area. The other man, wearing a dark jacket, is kneeling on the floor, also working on the engine. The motorcycle is a dual-sport style with a white frame and blue bodywork. The background is a plain, light-colored wall.

“ We still strip & rebuild a bike in our workshop the same way we always have. ”

“There are 100s of Manuals for 1000s of bikes, and the range is ever growing!”

Manuals are a great add on to parts sales, customers also remember where they purchased their manual so will remember where to go back to buy the parts they need.

Start stocking today and promote the best selling manuals on your counter!

CHINESE, TAIWANESE AND KOREAN 125 CC MOTORCYCLES	MAN4871
A Service and Repair Manual covering four-stroke single and twin cylinder carburettor-engined motorcycles of 125cc capacity. Information is provided on popular models from AJS, Baotian, Bashan, Better, Branson, British Trackstar, Chituma, Dadyu, Daelim, Dafier, Dayang, Dayun, Easy Rider, Feiyang, FYM, Geely, Giantco, Haotian, Hartford, Himo, Hongdou, Honling, Hsun, Huoniao, Hyosung, Jialing, Jianshe, Jincheng, Jinfeng, Jinlun, Kaiser, Keeway, Kinlon, Kinroad, Kymco, Lexmoto, Lifan, Loncin, Megelli, Moto Roma, Necht, Oubao, Pioneer, POR, Pulse, Romet, Qingqi, Sanya, Sanye, Shineray, Sinnis, Sinski, Skygo, Skyjet, Sky Team, Sukida, Sumoto, Superbyke, Suzuko, Sym, Tayako, TMEC, Urban, Venture, Vulcan, Wangye, Warrior, Wuyang, Xgiao, Xingyue, Xinling, Xiongtai, Yamasaki, Yuan, Zennco, Zhongneng, Znen, Zongshen, ZY Motor	
MOTORCYCLE BASICS	MAN3515
Aimed at beginners to motorcycling and those starting motorcycle engineering courses, this book will provide the reader with a sound understanding of how motorcycle components function and how they have been developed. The chapters are arranged in a logical order, starting with a full explanation of the two- and four-stroke combustion processes, the different induction methods and the various engine configurations, then leading on to chapters on how fuelling and ignition are controlled, how the engine is lubricated and cooled, and an explanation of the many different types of suspension, frame and braking systems.	

HAYNES SPECIAL INTEREST & TECHNICAL BOOKS

MOTORCYCLE ELECTRICAL MANUAL (3RD EDITION)

MAN3471

Tony Tranter is an acknowledged expert on motorcycle electrical systems, having pioneered the training of motorcycle mechanics to City and Guilds standard. His book is now in its third edition and has become standard reading for students attending courses on motorcycle engineering and also for DIY mechanics wishing to unravel the mysteries of electrical systems. This new edition brings coverage right up to date, with additional information on ABS, fuel injection and engine management. Much more information has been included on practical electrical testing and the use of test equipment, plus electrical fault finding.

MOTORCYCLE WORKSHOP PRACTICE MANUAL (2ND EDITION)

MAN3470

The Workshop Practice Manual provides information on how to use tools and test equipment, carry out minor engineering work, and discusses metalworking, welding, painting, plating and polishing techniques to name but a few. It also includes essential reference information on thread and fastener sizes, fuel ratings, lubricant types and chain sizes.

MOTORCYCLE FUEL SYSTEMS MANUAL

MAN3514

This book combines the subjects of carburation and fuel injection. The reader is taken from the basic operation of the carburettor and fuelling theory to the most sophisticated electronically controlled fuel injection in use today. The text covers the common carburettor and injection system types (including older designs), plus their supporting components such as air filters, fuel pumps and sensors. Practical advice covers overhaul, set up and the use of diagnostic equipment, plus a whole section on fault finding.

MOTORCYCLE MAINTENANCE TECHBOOK

MAN4071

Keith Weighill has many years of experience working with motorcycles, both in the trade and as a former lecturer in motorcycle engineering at Merton College. His book provides the DIY mechanic with procedures and useful advice on servicing and minor repairs. The book is divided into six chapters covering: Tools, Service schedule, Engine procedures, Chassis, Electrics and Accessories

MOTORCYCLE MODIFYING

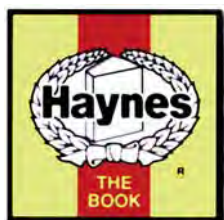

MAN4272

Practical advice, accompanied by photographic step-by-step procedures, on the fitting of bolt-on aftermarket parts and accessories to typical superbikes. Areas covered include exhaust systems and end cans, screens, undertrays and bodypanels, rear sets and clip-ons, steering dampers, upgrades to shocks and brake parts, engine mods and power improvers, instrumentation and lighting add-ons.

HAYNES HIGHWAY CODE FOR MOTORCYCLISTS

MAN5152

Every learner motorcyclist needs a copy of the Highway Code, and here's an appealing version that provides extra information and even more value for money. In addition to the essential 'Rules of the Road', this value-added offering contains information about basic motorcycle maintenance, motorcycle care and other practical matters such as tax, MoT and insurance. This is a handy, low-cost publication that will be invaluable to all new riders.

TOOLS

CHAIN BREAKERS

DESCRIPTION	ORDER REF
Universal Chain Breaker (Up to 530)	CB1
Spare Pin Complete for CB1	CBP
P195 Chain Link Extractor to 530	P195
The P195 chain breaker is a user friendly chain cutter For cutting 420 to 530 (Std, H/Duty O-ring, X-ring)	
Spare Pin for P195 Extractor	P195SP
'O' Ring Chain Assembly Tool	TOL017
Chain Breaker & Rivet Tool	CB2
An all in one chain tool, which makes changing your chain a simple task. Designed to break chains, press fit link plates and rivet pin heads. Suitable for cutting 420 to 530 (Std, H/Duty O-ring, X-ring)	
Chain Breaker & Rivetter	TOL054
The TOL054 chain breaker and rivetting tool is a high quality precision made tool capable of cutting and rivetting all grades of chain from 520 to 530 (Std, H/Duty, O-ring, X-ring). A very useful tool which is a must for any toolbox or workshop
